

How to recover a permanently deleted file

Perhaps you clicked the wrong button or clicked ‘delete shortcut’ resulting in a file being deleted even from your recycling bin. No matter the method it was lost, here are 10 simple steps you can take to get it back

1. Visit www.ccleaner.com/recuva
2. Download the free version of [Recuva](#).
3. Once the file has saved onto your computer, open the file, and install the program
4. Run Recuva
5. Select the type of file you would like to recover if you know. Otherwise click ‘All Files’
6. If you know where the file was located, specify the location. Otherwise click ‘I’m Not Sure’
7. Click start (this will begin scanning your computer for deleted documents)
8. Use the file name to search for the deleted file
9. Check the box on the left-hand side of the file name you desire
10. Click recover button on the bottom right-hand side of the screen
